

DJ SHIVA

TECHNICAL RIDER

To help ensure a smooth setup and a great performance, please review the following technical needs for DJ Shiva.

EQUIPMENT PROVIDED BY DJ SHIVA

- Pioneer DJ XDJ-RR all-in-one DJ system
- Music media / USB drives
- Headphones
- Power adapter
- Audio cables for connecting to the venue's sound system

EQUIPMENT PROVIDED BY THE VENUE OR ORGANIZER

- A professional PA system appropriate for the venue and anticipated audience size
- Main speakers and subwoofer(s)
- An available XLR or RCA connection to the sound system
- One sturdy table or DJ booth, preferably at least 4 feet wide by 2 feet deep
- One grounded electrical outlet located near the DJ setup

SETUP & OUTDOOR EVENTS

Please have the sound system set up and operational before DJ Shiva's scheduled setup or sound-check time.

For outdoor events, the DJ table and equipment must be placed in a fully covered, dry area protected from rain and other weather conditions.

If any items are unavailable or alternative arrangements are needed, please let us know in advance so we can work together to make the necessary accommodations.

Thank you - we look forward to a great event!
